I've been friends with Pricilla for years. She has one of the most informative TLs of anyone I pay attention to. She continually researches & pieces it all together. Then posts it so her followers are more aware of what's going on. It has 0 to do with who she follows & who follows her. Complaining about Twitter being screwy is a legitimate irritation. And with all due respect ma'am, what they're irritated about...if my memory serves me correctly...doesn't have anything to do with you at all. Do you follow our POTUS because you want him to follow you back?
